**Subject:** RE: Clean Power Plan Inquiry

Hi Rudy,

Thanks for your email. Sam Alexander recently left our office, but Emily Rampone, our legislative correspondent on energy issues, is available to for a phone call, though I am not sure if today will work for her. I have copied Emily here so you can make arrangements on date/time.

Thanks, and have a great day as well.

Best,  
Haley

**Subject:** Clean Power Plan Inquiry

Haley,

The following Clean Power Plan question below came in to our program staff from Sam Alexander (I understand that he is an intern with Senator Sanders Office.)

The questions are below

- Interested in more information on the Clean Energy Incentive Program, specifically:
  - What the amounts/percentages for renewable energy will be and will it follow the production tax credit and investment tax credit?
  - Timing for roll-out
  - Will energy efficiency projects be eligible for the matching or is that limited to renewable energy projects?

The call came in to Lisa Grogan-McCulloch. She and Shutsu Wong, regional program staff, have been working with HQ staff to answer these question.

I was just made aware of the inquiry and would like to know if you and Sam are available for a call this morning. I have talked with Shutsu, and she and Lisa are available.

Thanks. Let me know. Have a great day.
